## Club Med Turks and Caicos First-Hand Experience!

by Linda Newby, Owner, Gallery Travel

This all-inclusive resort allows you to **DINE, DIVE, DRINK** and **DANCE** the night away!

**H**aving just returned from a travel agent seminar to check out the newly renovated Club Med Turks and Caicos Islands, I can report back to you about the location.

It's just a short flight away from Miami, but what a world of difference! Considered one of the **Top Ten** dive spots in the world, you're greeted to a world of beauty and pristine, powder sand beaches. As a PADI Golden Palm Resort, Turks and Caicos is Club Med's most extensive dive facility, offering scuba services from introductory lessons to advanced open water programs. And Club Med has their own catamarans and dive boats with all of the equipment readily available!

Dine all day, with meals served from 7:00 am to 10:00 pm at the main restaurant - or choose one of the two specialty restaurants that feature Mexican and Italian food.

**With land only rates starting at \$799, Club Med is your best vacation value!**
